PROFESSIONAL SUMMARY

Integrated MCA student (Expected 2027) and Full Stack Developer with experience building scalable web applications, REST APIs, and AI-powered solutions using Java, React, Node.js, and Supabase. Founder of NexloraAI with hands-on experience building SaaS products, AI-powered applications, and scalable software systems.

EDUCATION

Devi Ahilya Vishwavidyalaya (DAVV)

Indore, India

Integrated Master of Computer Applications (MCA)

Expected Graduation: 2027

- **Relevant Coursework:** Data Structures & Algorithms, DBMS, Operating Systems, Software Engineering, Design and Analysis of Algorithms, Object-Oriented Programming

EXPERIENCE

NexloraAI

June 2025 – Present

Founder & Full Stack Developer

Indore, India

- Architected and deployed a scalable full-stack SaaS platform using React, Node.js, and Supabase, optimizing relational database schemas to minimize core API endpoint response latency.
- Reduced development overhead and accelerated system iterations by implementing highly reusable backend REST APIs and modular service layers.
- Spearheaded end-to-end product engineering lifecycle, designing clean system architectures for AI-powered business workflow automation.

School of Life Sciences, DAVV

February 2026

Web Development Intern

Indore, India

- Modernized the official departmental web platform by restructuring legacy front-end components into a responsive modern framework to support daily student and faculty navigation.
- Optimized content delivery performance and asset loading times through clean DOM structure styling and layout refactoring.
- Enhanced user discovery workflows by redesigning web cross-device compatibility and navigational hierarchy.

PROJECTS

GetYourQR – QR-Based Business Platform

March 2026 – Present

React.js, Node.js, Express.js, Supabase

- Engineered a comprehensive QR-based restaurant digital menu platform featuring dynamic data updates and secure session authentication using React, Node.js, and Supabase.
- Architected market-ready backend REST APIs and designed modular payment processing integration workflows for reliable merchant transaction states.
- **Live:** <https://getyourqr.in>

VogueRent – Premium AR Fashion Platform

February 2026 – Present

React.js, Node.js, Express.js, Supabase

- Developed a premium multi-vendor e-commerce web platform integrating interactive AR model previews and real-time buyer-to-seller communication frameworks.
- Implemented low-latency instant messaging architectures utilizing Supabase real-time WebSockets to manage instantaneous database-driven text transmission.
- **Live:** <https://voguerent.in>

TECHNICAL SKILLS

- **Programming:** Java, JavaScript (ES6+), Python, C, C++
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, Flutter
- **Backend & Cloud:** Node.js, Express.js, Spring Boot, Django, Oracle Cloud Infrastructure (OCI), REST APIs
- **Databases & Tools:** MySQL, Supabase, SQL, Git, GitHub, Linux, VS Code
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Software Engineering, Problem Solving

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Google Cloud Compute Skill Badge

ADDITIONAL EXPERIENCE

- JPMorgan Chase – Software Engineering Job Simulation
- Deloitte Australia – Data Analytics Job Simulation
